I am a junior Computer Science major at Southern Adventist University, with 3+ years of freelance Web-Development. I am taking the senior level course Advanced Web Programming and have developed multiple projects in React working both frontend & backend. I am specialized as a frontend developer with a concentration in Web Development as a part of my degree.

PROFESSIONAL EXPERIENCE

Web Developer/Manager
Southern Adventist University - The Accent , Collegedale, TN
August 2025–Present

- Leading the full redesign and development of The Accent's online presence using custom WordPress code, creating a modern, responsive, and user-friendly interface.
- Spearheading the website's SEO strategy, resulting in a growth of weekly impressions from 1,000 to over 74,000 within months, with continued upward momentum.
- Scheduling and publishing daily articles with dynamic layouts and custom design elements, tailored to enhance reader engagement and content visibility.
- Managing a cross-functional team, including weekly strategy meetings and close collaboration with graphic designers, to implement a refreshed vision for the digital newspaper.
- Providing backend optimization and maintenance, ensuring high site performance, fast load times, and mobile-first functionality.
- Supporting editorial staff with training and tools to streamline publishing workflows and maintain content quality across the platform.

Freelance Web Developer
Type_Software - Web Team, Collegedale, TN
August 2024–Present

- Design and develop responsive websites using HTML, CSS, JavaScript, and React, ensuring optimal user experience across devices and browsers.
- Optimize website performance and accessibility improving SEO rankings for client sites.
- Manage end-to-end projects for a number of clients, delivering high-quality web solutions within tight deadlines.
- Provide technical support and training to clients, enabling them to independently manage and update their websites post-launch.
- Build and customize websites on platforms like Wix and Hostinger, delivering tailored solutions for small businesses, startups, and personal brands.
